Introduction

Dear parents

Thank you very much for purchasing our products.

The nice function and credible design in accord with somatology would afford the most safety and comfort when your child was in this child restraint.

In order to exert the excellent function, please adjust the child restraint till that is suitable for your child's stature and avoirdupois before using our product and then equip it carefully and steadily.

Research shows that a high number of baby car seat are incorrectly installed. Therefore, please take the time to read through the instruction manual carefully. Our product offers maximum safety only when it is used in accordance with the instructions.

Continuous research by our development team, user tests and consumer reactions ensure that we are kept fully up to date in the field of child safety. Therefore, if you have any questions concerning the use of our product, please do not hesitate to contact us.

Due to variation on the styles and designs of our products, the photographs and illustrations shown in this manual are generic. Therefore products fabric, colour and design may vary from images shown, Chelino reserves the right to alter products specifications

Use in the vehicle

DO NOT use on a passenger seat with a front airbag!

An airbag hitting the infant carrier can cause serious injuries to your child, possibly resulting in death.

Please observe the instructions in your vehicle manual for the use of child seat.

Installation in the vehicle

- For the protection of your baby

Please do not leave your child unattended in the child safety seat in the vehicle.

Do not place any objects in the footwell in front of your ISOFIX-Adapter.

- For the protection of all vehicle occupants

In the case of an emergency stop or an accidents unsecured persons or objects may cause injury to other vehicle occupants. Please always check that.

The backrests of the vehicle seat are locked (i.e. that a foldable rear seat bench latch is engaged).

All heavy or sharp-edges objects in the vehicle (e.g. on the parcel shelf) are secured.

All persons in the vehicle have their seat belts fastened.

The child safety seat is always secured when it is in the vehicle, even if no child is being transported.

To protect your vehicle

Some vehicle seat covers of sensitive material (e.g. velour, leather ,etc.) may develop wear marks when child seats are used. This can be avoided by placing a blanket or towel under the child seat .

Fastening the infant carrier using the ISOFIX adapter

STEP1: Press the ISOFIX release button  to release the ISOFIX connector.

STEP2: Fold the Support leg  on the ISOFIX base in downwards direction.

STEP3: Take hold of the ISOFIX base with both hands.

STEP4: Push both ISOFIX connector  to the ISOFIX fastening points until the ISOFIX connector engage on both side."CLICK!" The indicator color of the ISOFIX connector turn into green from red.

Adjusting the support leg

Press the Leg tube adjustment button  and pull out the support leg

7 until it rests firmly on the floor of the vehicle. The color of the indicator in the support leg and color turn into green from red.

Locking the infant carrier

Ensure that the top surface of the ISOFIX base is free of foreign bodies. Ensure that the handles is in the upper position. Position the infant carrier on the ISOFIX base against the direction of travel (baby facing backwards) and lock the infant carrier in place, "CLICK!" The color of the indicator on the base will turn into green from red.

Removal the infant carrier and ISOFIX base.

Push the Infant carrier unlock button 3, lifting the infant carrier at the same time.

Fold back the support leg.

Press the ISOFIX unlock button  to release the ISOFIX base. At the same time, another hand push ISOFIX connector, according to the direction of the arrow to push can shrink ISOFIX connector.
